SUMMARY

Passionate and detail-oriented Web Developer with 2 year of hands-on experience specializing in back-end development and scalable system design. Skilled in building robust applications with Laravel and RESTful APIs, integrating third-party platforms such as Telegram and Discord through custom bot development, and optimizing workflows with modern tools like Vite and Tailwind CSS 4.0. Experienced in database management, server-side logic, and delivering secure, high-performing e-commerce solutions. While proficient in front-end frameworks like React.js, GSAP, and Alpine.js, my core strength lies in architecting efficient back-end systems that power seamless user experiences. Eager to contribute to dynamic teams, streamline processes, and continuously expand technical expertise in fast-paced environments.

EDUCATION

SMK NEGERI 1 GARUT

Safiro Jewelry

E-Commerce Website Development

We recently completed a website project for a distinguished jewelry brand, focusing on delivering a simple yet elegant online presence that effectively showcases their exquisite collection. The client requested a design that exudes sophistication while being user-friendly and functional.Built on WordPress and powered by WooCommerce, the website seamlessly integrates product displays with a smooth and secure shopping experience. Each piece of jewelry is presented with high-quality images and detailed descriptions, allowing customers to appreciate the craftsmanship before making a purchase.To enhance the site's interactivity and visual appeal, we utilized cutting-edge technologies like Alpine.js for reactive components, GSAP for smooth animations, and Swiper for dynamic, touch-enabled carousels. These tools contributed to creating a refined and engaging user experience.The website is fully responsive, ensuring optimal performance on all devices, and includes intuitive navigation to enhance user experience. This project successfully meets the client's vision, offering a polished platform that not only highlights their jewelry but also provides a reliable e-commerce solution for direct purchases.
